Subject: Result of evote of 28th Nov - Malta meeting

Dear Friends and Colleagues,

Yesterday was the last day for filling in the doodle for the Malta meeting. Please see the attached list.

- For those who registered. Please check that the days you indicated are the right ones. They should include both the arrival and the departure day. We need this type of information to keep the budget under control. For any change, please write to our Action Manager Maurice <m.macartney@qub.ac.uk>
Many thanks to those who accepted to pay for their flight on their own.

- For those who did not register. You are always welcome to come to the meeting of course. However reimbursement will not be guaranteed anymore, and will depend on budget availability. Again, please write to Maurice in case you plan to attend the meeting.

Soon you will receive further information regarding the meeting.
Kind regards,
Angelo

Dear Friends and Colleagues,

I am writing for several pieces of information, and decisions to take. I kindly ask you to read this email till the end.

1. **WEBSITE.** The Action's website is now online: www.qispace.eu
You are welcome to visit it. We are implementing a registration system, for the WG groups as well as for all activities. We are still testing it, so please do not register till future notification.
2. **MALTA MEETING.** On the Action's website, you will find the announcement of the forthcoming Malta meeting. The direct link to the meeting's website is: <https://qispace.malta.sciencecont.org>
which contains all relevant information. I wish to thank André for the help and significant amount of work in acting as local organizer. As you will see, there is a rich agenda with a MC meeting, WG meetings (to kick off the science/technology) and a workshop. Speakers will be announced in due time.

We now face the issue of optimizing the budget for the meeting. I will write you (and ask for your evote) regarding the reimbursement rules shortly in a separate email; however travel and living expenses for MC members will be covered. You well understand that we need to know exactly and in advance, who will come and who will not, so that we can use the leftover money to invite and support other people, informing them early enough. Therefore, please use the doodle:

<http://doodle.com/poll/mqth678qgs8sumah>

to kindly let me know

1. If you come;
 2. For which days.
- (Please do not write me emails; answer via the doodle.)

We would also like to ask you whether you are willing to pay the flights by yourself (asking for reimbursement from your institution, instead of us). The general strategy will be that MC members will be reimbursed for their travel and local expenses (but hopefully several of you will take charge of their travel expenses), and the remaining money will be used to cover the local expenses of other invited speakers, and in some limited cases also the travel expenses (e.g. for early career investigators). But be informed that you, as MC members, have the right to claim reimbursement also for your flight. Mine is simply and only a kind invitation, for those of you who have sufficient travel grants.

Please send an email to Maurice Macartney (see below) telling him if you or your institution can or cannot cover the cost of your own flights. This kind of information will remain strictly confidential and will not be distributed around.

Maurice's address: m.macartney@qub.ac.uk

Deadline for responses: Monday 12 December 2016

No answer means that you will *not* come, or if you come, you lose your right to reimbursement.

Be also informed that you are entitled to be replaced by an MC substitute member from your country, in case you cannot attend the MC meeting. That also has to be arranged within the next two weeks, with the same procedure described here above for the MC members.

3. STSMs. Catalina kindly prepared the first call for STSMs, which is herewith attached. I kindly ask for your approval.

Deadline for voting: Monday 5 December 2016

No answer means that you approve (as per COST rules).

After the deadline, in case of approval, the call will become operative and will be advertised on the Action's website. Many thanks to Catalina for the work and collaboration.

4. **ACTION MANAGER AND ADMINISTRATOR.** Last but not least, you know that Queen's University Belfast is the Action's Grant Holder (GH) Institution, and Mauro Paterostro the GH representative. He has selected:
- Aveen Lavery as Action Administrator. She will be responsible for reimbursements.
- Maurice Macartney as Action Manager. You will refer to him for all technical questions (non-scientific ones);
Contact details can be found on the Action's website:

<http://www.qtspace.eu/?q=organization>

I wish to express my gratitude both to Aveen and Maurice for their work and assistance. Welcome on board.

To summarize, there is a doodle to fill in and an email to send within two weeks, and one vote to take within one week.
Thank you for the collaboration and kind regards,
Angelo
